DECREASE IN NUMBER OF FAILURES.

Dun's Report Also Takes a Hopeful View of the General Situation.

Bradstreet's report shows that the holidays and mild weather have had an adverse effect on trade. Nevertheless the volume of business has been unusually large. The outlook for the future is regarded as promising. R. G. Dun & Co. also report a favorable

"SPECIAL TELEGRAM TO THE DISPATCH.]

NEW YORK, January 4.- The special telegraphic reports to Bradstreet's this week show less activity in trade generally than in the preceding weeks. The movement of staple merchandise has been adversely affected by the New Year's holiday and the mild weather. The volume of business has, on Liberty street. He was sentenced eight however, been exceptionally large for the season, and the feeling is very hopeful in all lines of trade. Cotton receipts have been very heavy in Louisiana, but lighter in Texas. Later news tells of a heavy drop in cotton receipts at interlor towns. The industrial situation is more promis

ing, and there have been fewer disturbances between employers and employes than for any preceding week for several years. Groceries, drygoods and drugs are relatively the most active, while lumber, leather and hardware are not in specially active request. Collections generally have not improved. Funds, while not actually easier at several of the larger money centers, are rapidly becoming so since the heavy disbursement for interest, dividends and other settlements on

January 1. Stock speculation at New York has been dull and depressed on doubts of the ability or willingness of Western railroad officials to maintain rates. A slight diffi-culty between the Rock Island and other companies regarding passenger rates increased this disposition. Stockholders appear to be moving to exercise more decided control over railroad corporations. Bonds are dull and strong under a good investment demand. Money at New York has been firm under the January disbursements, but is now easier. Call loans 41/65 per cent. During the week 6 per cent was quoted. Foreign exchange is weaker on a supply of cotton bills and lower money at don. Demand sterling, \$4 88@4 881/4.

DECREASED LIABILITIES. The bank clearings at 37 cities for 12 months of 1888 aggregated about \$49,191,-.00,000, a decline of 4 per cent. The decline is due solely to the heavy decrease in New York City's aggregate of bank clearings, in-asmuch as the total for the cities referred to, exclusive of New York, show a net increase over 1887 of 1.8 per cent. The total number of mercantile failures reported to Brad-street's during 1888 is 10,587, about the same number as were reported in 1886, but 9.7 per cent more than were reported in 1887. There has, however, been a decrease of 10 per cent | Recorder's Office yesterday. The capital stock in the aggregate of liabilities of failing traders, while the decrease in assets has been but 4 per cent, thus raising the ratio of assets to liabilities of the failures during 1888 to 52 per cent, as compared with 49½ per cent, in 1887.

Domestic wheat markets are irregular, and close 14@14 lower for cash. Exports have declined, aggregating from both coasts this week but 1,086,369 bushels (wheat and flour as wheat), against 1,229,141 bushels last week. San Francisco exported 511,000; New York, 65,000; Philadelphia, 14,000,and Baltimore and Montreal each 5,000 bushels of wheat this week. Total exports of wheat (and flour as wheat) both coasts, from July 1 to date, are 52,300,000 bushels, against 76,000,000 in the like portion of 1887-88. Stocks of wheat out of farmers' hands, specially reported to Bradstreet's, aggregated 52,740,000 January 1, 1889, a decline of 24 per cent compared with January 1, 1887, when stocks were the heaviest on record. Stocks of wheat have increased but 1,340,-

600 (at nearly 1,000 points of accumulation) since December 1, 1888, notwithstanding official visible supply reports, which show an increase of 2.219,000 bushels of wheat to visible stocks at 20 points since December 1 last. Stocks of flour in first and second hands are the largest reported, having inereased 191,000 barrels since December 1 notably at Omaha, Cincinnati, New York City and Boston. There are 65,700 barrels more in stock than one year ago, and 77,440 barrels more than on January 1, 1887, when the stock aggregated 2,024,695.

PROMISING OUTLOOK. Drygoods agents and jobbers are arranging for spring trade. New business is of strictly moderate proportions. The higher prices demanded for woolen goods make buyers slow. Cotton goods are firm, with fair orders from agents for prints and ginghams. The advance in raw silk last year induces confidence in higher prices for foreign goods. The outlook is promising. Raw wools are strong in price and moderate in demand. The world's visible supply, not including wool in bond in the United States. is estimated at 80,189,157 pounds, against 124,995,096 pounds a year ago. Manufact urers' stocks are larger than a year ago.

Raw cotton is speculatively higher at New York, 21 to 22 points and spots 1-16 cent, owing to lighter crop movement and better trade at Liverpool. Raw sugars have declined again 1/4 cent on lower cables and materially weakened demand, in part due to holiday observances. Refined sugars, though 1/4 to 1/4 cent lower at all markets, continued to rule quiet. Speculation in coffee at New York has been more confident both here and abroad, in good part to protect outstanding speculative contracts, and the market has been excited, with a gain on the week of 80 to 90 points. Dealings abroad have been relatively lighter, but prices have been firmer.

It is stated that a 10-year or 12-year contract for the copper output at 14c per pound has been virtually concluded between the foreign syndicate and American producers. The dividends of eight leading companies for 1888 are given at \$3,940,000, as compared with \$1,460,000 the year before. No change

in prices.

Business failures reported to Bradstreet's number 286 in the United States this week, against 334 last week and 293 this week last year. Canada had 22 this week, against 30 last week

ENCOURAGING OUTLOOK.

R. G. Dun & Co. Report n More Hopeful

Feeling at All Points. YORK, January 4.-R. G. Dun & Co.'s

facturing at many Western points is a notable feature, especially in the gas regions, and at points in Northern Illinois and Iowa. Mer-chants generally reckon up a large increase in amount of business last year. The tardiness of collections, due in different sections to short r late crops, to yellow fever, to mild weather, to retarded distribution or marketing, is a

or to retarded distribution or marketing, is a matter of general complaint.

At many cities the record of building shows a surprising increase, especially at the West. The money markets, though usually well supplied, have a better demand at Philadelphia, Cleveland, Detroit, Milwaukee, Omaha and Sioux City. The volume of currency, practically unchanged during December, is now \$1.406,000,000, only \$1.500,000 below the largest ever recorded, that of November. A year ago it was \$1.884,000,000; in July, 1887, only \$1,520,000,000 and in July, 1886, only \$1,250,000,000.

During the past week the Treasury has taken in 500,000 more than it has paid out, and the Bank of England statement leads to the belief that more money may be drawn from this side.

But the merchandise exports for the past month from New York have exceeded those of gallery, 516 Market st., Pittsburg.

the previous year 1.6 per cent, against an increase of 2.5 per cent in imports, which would indicate an excess of \$20,000,000 in exports over imports for the month. The course of the stock market thus far has disappointed those who looked for rapid advance. Reports of rate cutting have a bad influence.

Speculative markets have not been active, excepting for lard, which has declined over \$4c\$. Coffice is \$4c\$ higher, with sales of 283,000 bags; cotton steady, with sales of 283,000 bads, and wheat unchanged, with sales of 20,000,000 bushels for the week. Corn is \$4c\$ lower, and oats nearly ic higher. Crude oil is nearly ic lower, and refined 2c per gallon lower. While the production last year is believed to have been 5,970,000 gross tons, the deliveries of steel rails were probably 500,000 tons less than in 187, and about 1,100,000 tons less than the capacity of mills.

about 1,100,000 tons less than the capacity of mills.

The annual statement of failures, showing that 10,679 firms, or a triffs more than 1 in 100, went into bankruptey in 1888, is on the whole especially encouraging, because the average of liabilities was only \$11,585 for the year and \$10,788 for the last quarter. This indicates that a remarkably large proportion of the failures reported was of concerns doing a small business. It may be noticed that throughout the Western and Southern States, Texas included, the failures were both more numerous and larger in aggregate of liabilities than in the year preceding, while in Eastern, Middle and Pacfic States an important decrease in amount of liabilities appears, and also in Texas.

The business failures for the week were 387.

CURES .. DYSPEPSIA

NEW ADVERTISEMENTS. **EVERY NIGHT I SCRATCHED** UNTIL THE SKIN WAS RAW. BODY COV-ERED WITH SCALES LIKE SPOTS OF MORTAR. CURED BY THE CUTICURA

REMEDIES.

I am going to tell you of the extraordinary change your CUTICURA REMEDIES performed on me. About the 1st of April last I noticed some red pimples like coming out all over my body, but thought nothing of it until some time later on, when it began to look like spots of mortar spotted on, and which came off in layers, accompanied with itching. I would scratch every night until I was raw, then the next night the scales, being formed meanwhile, were scratched off again. In vain did I consuit all the doctors in the country, but without aid. After giving up all hopes of recovery, I happened to see an advertisement in the newspaper about your CUTICURA REMEDIES, and purchased them from my druggist, and obtained almost immediate relief. I began to notice that the scaly eruptions gradually dropped off and disappeared one by one, and have been fully cured. I had the disease thirteen months before I began taking the CUTICURA REMEDIES, and in four or five weeks was entirely cured. My disease was eczema and psorfasis. I recommended the CUTICURA REMEDIES to all in my vicinity, and I know of a great many who have taken them, and thank me for the knowledge of them, especially mothers who have babes with scaly cruptions on their heads and bodies. I cannot express in words the thanks to you for what the CUTICURA REMEDIES have been to me. My body was covered with scales and I was an awful spectacle to behold. Now my skin is as nice and clear as a baby's. GEO. COTEY.

Inventory or Stock-Taking Sale.

Before going any further we wish to impress upon you right here not to confound this Bona-Fide Sacrifice Sale with the various catch-penny schemes now in operation at different stores in this city. You don't have to rely on your good luck when you come to us, but you are bound to save money on every purchase. We don't please one customer at the expense of disappointing ninety-nine-WE PLEASE THEM ALL With us EVERY PATRON DRAWS A BIG PRIZE-not a favored few. No partiality, no preconcerted arrangements, no dark schemes, but an open, fair treatment and a big benefit awaits all who may take advantage of our stock-taking sale. In other words, if you prefer an agreeable surprise to bitter disappointment, a good investment to a bad one, if you prefer profit to loss, truth to a myth, then come to KAUFMANNS' this week and get

### ONE - THIRD OFF!

On anything and everything you may buy, from a Shirt or Hat to an Overcoat or Cloak.

This reduction, incredible as it may seem, WE HAVE MADE, truly and honestly, on the price of every article in our store. Nothing was reserved. Even the finest and most fashionable garments had their prices cut down THIRTY-THREE AND ONE-THIRD PER CENT. Just look at the reduced figures on the price tickets of the garments, and you will be convinced of the genuineness of this sale. In Our
